

Radio stations such as K-LOVE NEED to remain a listening option in local communities. My family & many other families in our area love K-LOVE & saw it as a breath of fresh air when it became available in our area. K-LOVE provides a positive & refreshing alternative to the typical JUNK(sex, drugs, alcohol, etc) that is played on most stations.

Area families need stations like K-LOVE in order to promote a safe listening environment for their children. The ability to choose what to listen to is a great freedom in this country, but please consider the actual "Communities" affected if this choice of positive & encouraging radio broadcasting is removed.

Thank you for your time & consideration.
